Absence Aware™

## AUTOMATED TIME OFF REPORTING FROM THE ASHER GROUP

Unexpected absenteeism is a fact of life. But **Absence Aware™** from the Asher Group, lets you manage this problem easily and cost-effectively. With Absence Aware your employees call an automated platform to report their absence or lateness.

Then, with rules you set, your UKG database is updated with points, time-off requests, etc. Even send alerts to supervisors so they know what shifts need to be filled. Customize the automated questions for employees to explain their absences. And leverage the power of UKG technology to enforce and administer your policies.

**And Absence Aware is incredibly cost-effective. Get payback in 6 months and ROI up to 50%.**

It's faster and more accurate than whatever manual process you may be using. And Absence Aware can be implemented in a few short weeks.

**Why take up valuable time processing absence calls manually, when you can switch to Absence Aware and save money, time and effort?**
